

Regular / General Domestic Checklist - Busy Bee Cleaning Services

Please note we have a standard rule that your first-time clean should be a deep clean, after that we can schedule regular cleanings. Regular cleaning usually happens on a weekly basis. The goal is to keep up with basic cleaning tasks. Please **remember this is not a deep cleaning service** which requires different cleaning products and equipment. Deep cleaning is recommended every 3-6 months but at least 2 times a year. Regular cleaning does not include removing weeks, months, or years of limescale, grease or mould build ups. To avoid disappointment, before taking on a regular cleaning service we highly recommend booking our deep cleaning service first to achieve a really good level of cleanliness.

Typical tasks that happen during this service include:
